Built-in Parrot Bluetooth

Featuring Parrot Bluetooth capability, these CD Receivers give you hands-free operation of your Bluetooth-enabled mobile phone with full phonebook access. A noise cancelation function ensures that calls are heard clearly. You can also stream music from your mobile phone and enjoy it through your car audio system.

Works with Nokia

You can connect Nokia (Symbian™) phones via USB to play back the music stored on the phone. You can also control basic music playback functions such as play, pause and title skip and search for music by files and folders. The phone also charges while it is connected. Requires KCU-230NK connection cable. © 2012 Nokia. All rights reserved. Nokia and Works with Nokia are trademarks or registered trademarks of Nokia Corporation.

Made for iPhone® and iPod®

You can control your iPhone/iPod from the head unit, using Quick Search to find songs fast. Direct iPod Control Mode lets you use the iPhone/iPod interface for direct operation and for viewing information in your desired language. This comes especially handy when a passenger selects the music while you keep your eyes on the road. Connect your iPod® or iPhone® via

the CDE-134BT's front USB port (requires KCU-445i or the original Apple USB cables that comes with your Apple product).

Expand your listening choices with USB and AUX-Input

Expand your listening choices by plugging your USB mass storage device into the front panel USB port. There's also a 3.5mm mini jack for MP3 players.

CDE-134BT - CD Receiver with Bluetooth

For trusted Alpine sound quality and the convenience of built-in Bluetooth wireless technology, the CDE-134BT CD receiver offers just what you need. Play your MP3, WMA or AAC music files or hook-up an iPod® or iPhone® via USB (cable sold separately) and control music playback and search functions right from the Head Unit. Alternatively you can also switch to Direct Control Mode and control playback from the iPod® and iPhone® directly. Carry hands free phone conversations on your drive, thanks to the power of Parrot Bluetooth with many advanced features built right into the head unit (microphone included). The convenient USB port and 3.5mm auxiliary input on the front of the unit allow you to easily hook up USB mass storage devices or an MP3 player.

You can adjust the Head Unit's button illumination colour to match your dash. The main button can be switched to green, blue, red or amber illumination, while the other buttons can be set to green or red illumination.
